RESEARCH PROJECTS

- 2026–2027 **INCORP-19: Infections, CORps et Parcours sociaux et professionnels des malades de symptômes post-Covid-19**
This interdisciplinary project combines sociology and epidemiology to analyze the emergence and trajectories of chronic post-SARS-CoV-2 symptoms (Long Covid). It aims to identify the social conditions favoring these symptoms, characterize their effects on career paths and economic resources, and understand how managing symptoms transforms somatic attention and generates stress.
Funding: €14 000
Members: Mattéo Lanoë (Principal Investigator), Émilie Counil (Co-Principal Investigator), Anne Revillard, Anne Pastorello, Enzo Bessega, and Dominique Salmon.
